“An innovative design for an end tow flat roller, which increases the speed of operation by eliminating the need for the driver to leave the tractor seat. The drawbar is rotated through 90° from transport to rolling position by activating 2 hydraulic cylinders which in turn activates a clever locking system for both road and field use”

Water Ballast Land Roller c/w Rotating End Tow Hydraulic Wheel Kit

- Centre Pivoting Drawbar c/w
- Automatic Locking Mechanism
- Rolling Width – 12ft
- Transport Width – 2.45m
- Barrel Diameter – 36"
- Barrel Thickness – 14mm
- Axle – 3" Solid Shaft (EN8)
- Nylon Bush Bearings as Standard
- Centre Support c/w Greasable Nylon Bush
- 6 Stud Heavy Duty Axle
- High Quality 2 Pack Paint Finish
- Scraper as Standard
- Adjustable Heavy Duty Ring Hitch
- 2 x Double Acting Hydraulic Cylinders

Roller Size	Unladen (Kg)	Laden (Kg)	Volume (Litres)	Wheel Size
12' x 36" x 14mm	2800	5050	2250	400 x 60 x 15.5

“Greasable centre support for 3" shaft which enables transportation fully ballasted. Nylon Bush Bearings on all models.”
