

Job Title: Service Technician- Agricultural

Location: South Devon

About Us:

Join our family-run agricultural supplies business, Martin Pears Engineering, based in South Devon. Founded by Martin and Louise Pears in 2006, we pride ourselves on our deep understanding of agriculture and commitment to providing excellent service. Our company offers a wide range of well-known brands, alongside a dedicated service and parts department, and a thriving country store.

Role Purpose:

Reporting directly to the Service Team, you will perform diagnostics, repairs, and maintenance on a variety of new and used agricultural machinery, utility vehicles, quadbikes and more.

Responsibilities:

- Conduct service, repairs, and Pre-Delivery Inspections (PDI) on new & used utility vehicles, quads, and agricultural equipment.
- Perform diagnostic testing to identify and address faults.
- Visit customers for on-site servicing, repairs, and fault finding.
- Build and PDI quads, utility vehicles, trailers, and machinery.
- Ensure thorough and accurate completion of all necessary paperwork, including job cards, machine details, time and mileage records, and any accompanying documentation such as PDI sheets and delivery forms.
- Attend training courses as required by the company to maintain satisfactory levels of compliance and understanding.
- Follow assignments through to completion, meeting deadlines and ensuring customer satisfaction.
- Maintain a safe and productive working environment.
- Work independently as well as part of a collaborative team.

Essential Skills/Experience:

- Experience in performing and servicing repairs on agricultural or horticultural machinery.
- Ability to diagnose faults and successfully carry out repairs, whether chargeable, warrantable, or internal.
- Completion of job cards and associated paperwork to a high standard.
- Full driver's licence.

Qualifications:

- Minimum NVQ2 in Mechanics or a relevant qualification is preferred. However, experience in mechanics is essential.
- Experience in Agricultural Engineering is not essential, but a genuine interest in the field is necessary.

Additional Information:

Contract: Permanent, Full Time

Salary: Competitive, depending on experience

Benefits: 20 Days Annual Leave (plus bank holidays), Workplace pension

How to Apply:

If you are excited about the prospect of a varied and challenging role, please send your application via email to Louise Pears at louise@mpearsengineering.co.uk.

At Martin Pears Engineering, we welcome individuals with a passion for mechanics to join our team.
