

NEW FOR
2025!

A NEW BREED OF HORSE TRAILER

THE ISLANDIC

EXPLORE MORE

The Islandic has been designed for the transportation of 5-6 ponies or small horses and has been specifically designed with comfort in mind. The new Islandic is suitable for horses up to 14.2 hands.

SAFETY & COMFORT

Some essential features have been placed at the heart of the design of the Islandic to help ensure the transportation experience for the horse is as comfortable as possible.

Some of the stand-out comfort features include:

- 5 sliding ventilation windows
- Telescopic partition with head partition (5 ponies option)
- Herringbone travelling
- Pullman 2 Suspension System
- Composite kickboard
- Protective cushioning

BUILT TO LAST

The Islandic horse trailer comes in new ABS exterior mudguards and is more resistant to scratches and small impacts. On top of this, the Islandic comes with an integrated mud flap which provides that extra protection to the exterior body of the trailer.

DESIGN & ACCESSIBILITY

When it comes to the look and feel, the Islandic presents some impeccable aesthetics thanks to the improved aerodynamic polyester shell design retaining a very impressive and important saddle space.

Cheval Liberté UK & Ireland are delighted to announce the arrival of a new breed of horse trailer for UK & Ireland. The Islandic is a new addition to the Cheval Liberté Herringbone Horse Trailer range.
